....

We know scarce few things about Cüret / [dzyret] / Kül / Disastrato. He lives and works in Paris as a graphic designer. He has lived in Ankara, Istanbul and Rennes. He's released a series of excellent deconstructions on UK label Audiobulb and elsewhere. Nevermind all that though - this album stands strongly on its own despite the lack of a history or personage to support it. Invent your own narrative, color disastrato in outside the lines. Make a nice dinner, put the lights on low, and let flows/flaws have its way.

This is the fourteenth release for Milwaukee and New Orleans based LuvSound records. We're very happy to add this lovely album to a growing catalog. Our previous and upcoming releases can be viewed here:
